

## Metal lock ring:

*Unique in the market!*

In cooperation with a well-known mechanical engineering we have developed a metal lock ring.

### 01 | Application Areas:

- Areas with harsh Conditions
- Airport Logistics, Quarries, Mining, Warehouse Logistics, Treatment Plants
- Mechanical Engineering
- All Outdoor Areas

### 03 | Material

- Die-Cast Aluminium

### 02 | Your Advantages:

- Mechanically extremely robust
- Ideally suited for harsh environments.
- Significantly higher security against manipulation in contrast to plastic.
- Wherever the usual lock rings are not used or only with reservations due to mechanical or physical conditions.
- Age resistant than plastic. Especially where extreme heat or cold can clog the lock ring.
